Facts about our clinic

The Klinikum Nordschwarzwald in Calw-Hirsau is a modern specialized clinic for:

- Psychiatry and Psychotherapy
- Child and Youth Psychiatry and Psychotherapy
- Geriatric- and Neuropsychiatry
- Addiction Medicine
- Forensic Psychiatry and Psychotherapy

with a total of 627 inpatient places as well as day clinics for psychiatry, psychotherapy, and addiction medicine in Pforzheim and Böblingen. In the area of child and youth psychiatry, there are an additional 24 partially inpatient places situated in Böblingen.

In the modern and certified center for sleep medicine, we diagnose and treat sleep disorders. Further, the clinic also runs a satellite department for psychosomatic medicine and psychotherapy with 27 inpatient places integrated into a general hospital in Leonberg.

Our psychiatric treatment center in Böblingen offers additional inpatient care on two wards with 27 places each including intensive care.

Psychiatric out patient clinics are located in the cities Bretten, Calmbach, Ettlingen, Herrenberg, Leonberg, Mühlacker, Pforzheim and Sindelfingen. The professional teams of these clinics fulfill the ambulatory psychiatric needs in the above mentioned regions.

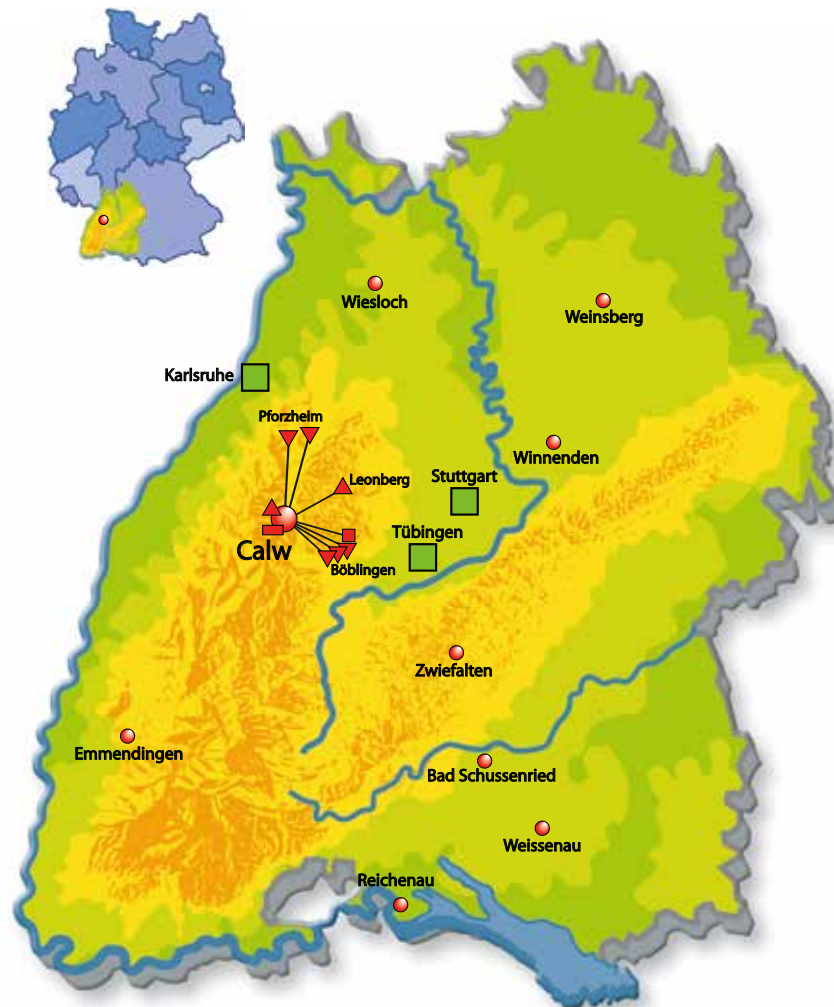

The clinic is equipped with a wide range of medical technology including computer tomography and is certified with the highest standard (KTQ 5.0) of the German health care sector.

In terms of medical education and professional training in accordance with the German qualifications, we can offer the following:

- 48 months in Psychiatry and Psychotherapy
- 48 months in Psychosomatic Medicine

- 48 months in Children and Youth Psychiatry and Psychotherapy
- Somnologia according to the German Sleep Society

Moreover there are further possibilities to get special expertise in the area of Psychotherapy and Sleeping Medicine
